---

## Summary

---

Mid-level Full-Stack Web Developer with a strong focus on frontend development, specializing in React.js and Next.js. Served as Lead Frontend Developer at Cowhouse.io, where I turned Figma designs into clean, responsive code. Known for excellent teamwork, clear communication, and building long-term client relationships — leading to multiple projects from repeat clients.

## Skills

---

**Frontend** React.js, Next.js, Tailwind CSS, Shadcn UI

**Backend & Database** Node.js, Firebase (Auth & Firestore), MongoDB, REST APIs **Authentication** NextAuth.js, Firebase Auth, OAuth 2.0 **Dev Tools & Deployment** Git, GitHub, Vercel, GitHub Actions **UI/UX & SEO** Figma to Code, Mobile-First Design, Accessibility (a11y), Semantic HTML, Performance Optimization **State Management & Forms** Zustand, React Hook Form, Zod **API & Integrations** Paystack, Flutterwave, Resend, Mailchimp **AI/LLM Optimization** Built interfaces and structured content optimized for AI/LLM consumption using semantic HTML, minimal token depth, and context-aware layout design

## Experience

---

**WACCPS.org | Remote**

**Full-stack web developer (Contract) | 06/2025 - 08/2025**

- Developed a role-based school management system with dashboards for students, lecturers, and super admins using React.js, Next.js, and Node.js.
- Built an exam management module with features for creating an exam bank, mixing randomized questions, and grading assessments.
- Implemented authentication and real-time database using Firebase Auth and Firestore. Integrated Cloudflare R2 for storage; ensured responsive design and performance across devices.

**cowhouse.io | Remote**

**Lead Front-End Web Developer (Contract) | 03/2023 - 05/2023**

- Served as Lead Frontend Developer, turning high-fidelity Figma designs into clean, responsive code using React.js, Tailwind CSS, and Next.js.
- Built reusable components and created RESTful APIs for authentication and core features.
- Collaborated across teams to deliver a scalable and maintainable platform.

**Everythingshelter.com.ng | Remote**

**Web Developer (Contract) | 03/2024 - 04/2024**

- Built a responsive, conversion-focused landing page optimized for ad campaigns and lead generation funnels, applying SEO best practices.
- Integrated a contact form and newsletter subscription system, which helped generate 500+ qualified leads in the first month.
- Converted PDF design files into responsive pages, maintaining brand consistency in layout, colors, and typography.

**vrealm.org.ng | Remote**

**Web Developer (Contract) | 07/2023 - 07/2023**

- Converted high-fidelity Figma designs into responsive pages using React.js and Tailwind CSS
- Implemented a user-friendly event booking interface for program registrations
- Optimized performance and responsiveness across all devices

## Projects

---

Web X - A drag and drop website builder with many features. [View Project →](#)

Docify - A Documentation website. [View Project →](#)
